normal operation of any City or Public Utility System previously installed therein. The system for providing Video Services shall be located on Public Grounds as determined by the City. Grantee may abandon underground facilities in place; provided, at the City's request, Grantee will remove abandoned metal or concrete-encased conduit interfering with a City improvement project, but only to the extent such conduit is or will be uncovered by excavation as part of the City improvement project.

(b) Permits and Inspection Rights. Grantee's construction, reconstruction, operation, repair, maintenance and location of its facilities shall be subject to permits if required by separate ordinance and to other reasonable regulations of the City to the extent not inconsistent with the terms of this Franchise. The City shall have the right to inspect, upon reasonable prior written notice, and at its expense, all construction and installation work performed by Grantee of Video Services facilities on the public rights-of-way as it shall find necessary to ensure compliance with a specified permit. Any such inspection shall be solely for the benefit of the City.

(c) Field Locations. Grantee shall provide horizontal field locations for its underground facilities within the City within forty-eight (48) hours of a formal request by the City. If vertical locations are requested, Grantee shall provide the information within fourteen (14) days.

Permit conditions imposed on Grantee shall not be more burdensome than those imposed on other entities for similar facilities or work. Grantee may, however, open and disturb any Public Way or Public Ground without permission from the City where an emergency exists requiring the immediate repair of its Cable System. In such event Grantee shall notify the City by telephone to the office designated by the City as soon as practicable. Grantee shall obtain any required permits for such emergency repair work not later than the second working day thereafter.

(e) Restoration. After completing any work requiring the opening of any Public Way or Public Ground, Grantee shall restore the same, including paving and its foundation, to as good a condition as formerly existed, and shall maintain any paved surface in good condition for two years thereafter. Work outside the paved area must be fine graded and seeded, hydro-mulched, or sod placed so that adjacent property owners or the City can mow without damage to machinery or people. The work shall be completed as promptly as weather permits, but in no case greater than sixty (60) days, and if Grantee shall not promptly perform and complete the work, remove all dirt, rubbish, equipment and material, and put the Public Way or Public Ground in the said condition, the City shall have, after demand to Grantee to cure and the passage of a reasonable period of time following the demand, but not to exceed five (5) days, the right to make to restoration at the expense of the Grantee. Grantee may be required to submit to the City a copy of any long range plan for construction of a system to provide Video Services before January 1 of each year along with a work schedule inside the City within that particular calendar year.

(g) Utility Corridors. The City will provide Grantee space within a utility corridor in which to locate on all major street projects as determined by the City. Any facility that is located outside the corridor will be required to be moved into the assigned location or the City may move the facility and charge Grantee for the relocation. Grantee must locate within the assigned area of the corridor so as to not interfere with other entities.

(h) The terms “ordinance,” “franchise,” and franchise ordinance are used interchangeably herein.

#### **Section 4. RELOCATIONS.**

(a) Relocation of Video Services Facilities in Public Ways. If the City determines to vacate a Public Way for a City improvement project, or at City’s cost to grade, re-grade, or change the line of any Public Way, or construct or reconstruct any City Utility System in any Public Way, it may order Grantee to relocate its Video Services System facilities located therein if relocation is reasonably necessary to accomplish the City’s proposed public improvement. Grantee shall relocated its facilities at its own expense unless the facilities are located in a private easement or right of way obtained by the Grantee. If they are in an easement controlled or obtained by the City or as part of a City project, the Grantee must relocate at its own expense. The City shall give Grantee reasonable notice of plans to vacate for a City improvement project, or to grade, re-grade, or change the line of any Public Way or to construct or reconstruct any City Utility System. If relocation is ordered within five (5) years of a prior relocation of the same facilities, which relocation was made at Grantee’s expense, the City shall reimburse Grantee for any non-betterment costs on a time and material basis; provided that if a subsequent relocation is required because of the extension of a City Utility System to a previously un-served area, Grantee may be required to make the subsequent relocation at its own expense. Nothing in this ordinance requires Grantee to relocate, remove, replace or reconstruct at its own expense its Video Services System where such relocation, removal, replacement or reconstruction is solely for the convenience of the City and is not reasonably necessary for the construction or reconstruction of a Public Way or City Utility System or other City improvement. Where public funds are made available to reimburse utilities or other occupants of the Public Ways for relocation costs, Grantee shall have equal right to apply for and access such funds.

(b) Relocation of Video Services System in Public Ground. The City may require Grantee at Grantee’s expense to relocate or remove its Video Services System from Public Ground upon finding by City that the facilities have become or will become a substantial impairment to the existing or proposed public use of the Public Ground.

(c) Moving of Buildings. Grantee shall remove, raise, or lower its wires temporarily to permit the moving of houses or other structures, provided that the person requesting such temporary removal, raising or lowering of the wires shall pay the expense of such temporary removal, raising or lowering of the wires, and provided that Grantee shall not be required to remove, raise or lower its wires with less than forty-eight (48) hours advance notice or mutually agreed upon time.

#### **Section 5. VEGETATION MANAGEMENT.**

Grantee shall have the authority to trim trees or other natural growth overhanging any of its Video Services System or facilities so as to reasonably prevent branches from coming in contact with the Grantee's wires, cables, or other equipment; however, the Grantee shall not engage in excessive trimming except during an emergency or the recovery after an emergency. Grantee shall reasonably attempt to notify the City and its residents at least three days prior to entering onto property to perform any tree trimming activities.

#### **Section 6. FRANCHISE FEE.**

(a) Franchise Fee. Grantee shall pay the City a municipal franchise fee in an amount equal to three percent (3%) of Grantee's annual Gross Revenues. The City may adjust said franchise fee at any time by providing written notice to the Grantee of such change no less than ninety (90) days in advance of the specific date upon which the change is to be effective, provided that such different rate does not exceed the maximum permitted by 47 U.S.C. § 542(b).

(b) Payment Schedule and Reports. Payments shall be made to the City on a quarterly basis, not later than forty-five (45) days after the last day of each March, June, September, and December. Each payment shall be accompanied by a brief report from a representative of the grantee showing the basis for the computation, and certification that the calculation of the payment is in accordance with the terms of this ordinance and is believed to be accurate.

(c) Verification. Grantee shall maintain books of account and records adequate to enable Grantee to demonstrate that it is in compliance with the obligation to pay the fees described in this Agreement with respect to Video Services. The City shall have the right to examine, audit and verify from the records of Grantee any data relating to the Gross Revenues subject to the required fee. The City acknowledges that some of the records which may be provided by Grantee may be classified as confidential or proprietary and, therefore, may subject Grantee to competitive disadvantage if made public. To the extent permitted by law, the City shall therefore maintain the confidentiality of any and all records provided to it by Grantee and cooperate with Grantee in protecting such confidential or proprietary information in the event an open records or similar request is received by the City pursuant to applicable laws.

#### **Section 7. ASSIGNMENT.**

Grantee shall have the right to assign this Franchise and its respective rights, terms and conditions, to an affiliated entity so long as the operations to be conducted by said assignee are in accordance with the applicable standards contained therein and Grantee and its assignee remain responsible for all obligations of this ordinance. Any

assignment to an “unrelated entity,” as that term is hereinafter defined in this paragraph, or any subsequent assignment of this Franchise to an unrelated entity, shall be subject to the prior written approval of the City, which approval shall not be unreasonably denied or delayed. The one mile shall be measured in extension length of Grantee’s facilities or line required for service located within the Public Way and shall not include length of necessary service drop to the Subscriber’s home.

(c) Public, Educational, and Governmental Programming. Grantee agrees to, upon request, provide governmental access to one (1) channel without charge for the City’s noncommercial, public, education and government (PEG) programming through its Video Services System. (f) FCC Rules and Regulations. The Grantee shall comply with all applicable rules and regulations of the FCC, including, without limitation, any applicable rules and

regulations governing emergency alert systems, technical standards and customer service standards.
